Upon completion of the module, the participants should be able to:

- Know the hazards associated with rescue at heights and the roles and responsibilities ERT by successfully passing at shout written test with a score of 80%.

Delivery Methods:

Classroom activity

Topics:

- Hazards associated with rescue at height
- Types of emergencies likely to encounter
- Roles and responsibilities of ERT

## COURSE OUTLINE CONFINED SPACE RESCUE

### Module Two: Rescue & Protection Equipment

**Time Allocation: 45 mins**

Module Terminal Objectives:-

Upon completion of the module, the participant should be able to:-

- Know the requirements for safe entry (knowledge)
- Know the types protection & rescue equipment to be used (knowledge)

Module Enabling Objective(s):

Upon completion of the module, the participant should be able to:-

- Know the requirements for safe entry and the types of protection & rescue equipment to be used by successfully passing a short written test with a score of 80%.

Delivery Methods:

Classroom activity

Topics:

- Safety requirement for entry
- Use of personal protective equipment
- Use of rescue equipment

**ESTC ACADEMY**

## COURSE OUTLINE CONFINED SPACE RESCUE

### Module Three: Practical Exercise

**Time Allocation: 270 mins**

Module Terminal Objectives:-

Upon completion of the module, the participant should be able to:-

- Demonstrate correct techniques for casualty handling (competence)
- Demonstrate correct & safe rescue techniques (competence)
- Demonstrate correct use rescue equipment (competence)

Module Enabling Objective(s):

Upon completion of the module, the participant should be able to:-

- Demonstrate the correct & safe techniques for rescue casualty handling and the use of rescue equipment by successfully passing the performance criteria as stated in the competence assessment form

Delivery Methods:

Scenario based practical demonstration

Topics:

- Techniques for rescue at heights/elevated platforms
- Safe handling of casualty
- Use of rescue equipment

**ESTC ACADEMY**
